

## Abbott Medical Korea Hands-on Session Guidelines

Perclose™ ProStyle™ Suture-Mediated Closure and Repair System

---

### 1. Session Objective

Enable participants to learn the usage and procedural steps of the Perclose™ ProStyle™ system through hands-on practice.

---

### 2. Session Format

- Open Hands-on Experience: Participants will visit and directly practice using the VCD (Vascular Closure Device).
- Training Tools:
  - Wet model
  - Acrylic Demo Kit
- Practice Scope:
  - Single-Deployment Procedure
  - Multiple-Deployment Procedure

---

### 3. Additional Information

- The session can be conducted in English or Korean, depending on participant needs.
- Tailored explanations will be provided based on participant experience level.

## Abbott Medical Korea Hands-on Session 운영 가이드라인
